Facts & Figures

PPS Allowance and the TU/e
Topsector Policy of the Netherlands

PPS Allowance

PPS Allowance a bonus provided by the Ministry of Economic Affairs on private investments at public research institutions.

Stimulate knowledge institutes to spend part of their budget on industrially relevant themes.

Stimulate industry to invest in public research.

PPS allowance flow

Industry → Cash control → TU/e

"toeslag" → PPS allowance → Reporting → TKI

"grondslag" → PPS → RVO → EZ

Joined research
PPS Allowance
Stimulates the TU/e to devote substantial budgets on industrially relevant themes.

PPS Allowance
It's used by the TU/e as a strategic instrument to strengthen the relation with key industrial accounts.

PPS Allowance
Stimulates industry to invest in collaborative research with the TU/e.

PPS Allowance
Helped to start the Eindhoven Engine.
PPS Facts and Figures

400* Projects at TU/e with private funding.
   * about

250* PPS-compliant projects with industry.
   * about

17* TKI-funded PPS-projects at TU/e.
   * at least

High Tech Systems and Materials

23.8M€ PPS Allowance received by TU/e
   In total

91M€ Industrial contribution to PPS-projects
   In total

115M€ Total PPS-project spending

= 328 PhD's
The PPS-allowance stimulates the TU/e to devote substantial budgets on industrially relevant themes.

The PPS-allowance stimulates industry (both inside and outside the Brainport region) to invest in collaborative research with TU/e.

The PPS-allowance has helped to start the Eindhoven Engine.

The TU/e policy is to use the PPS-Allowance as a strategic instrument to strengthen the relation with key industrial accounts.
The TU/e IMPULS that ignited the TKI-Allowance

**Mini-IMPULS concept**

Powerful means of innovation funding combining PPS-program and PPS-project allowance in the same project. This enables allocation of PPS funds as a strategic instrument for TU/e.

**Stimulating even more Public-Private partnerships.**

**Instrumental in underlining strategic partnerships of the TU/e.**

**Attractive for both industrial key accounts and the TU/e.**

---

**Total amount 1600 k€**

- Cash from industry: 25%
- PPS project allowance: 50%
- PPS program allowance: 15%
- In-kind from industry: 5%
- In-kind contribution TU/e: 5%

---

800 k€ industrial commitment results in twice as much project budget for common research.
14 mini-IMPULS propositions realized in 3 years.

56 PhD positions
3 PDEng traineeships

Over the years 100 partnerships facilitated
