Data regulatory (Toine Kuiper)
Thursday, October 22, 14.00-17.00; obligatory for all PhD's and PostDocs

This course is an initiative by e/MTIC (Eindhoven MedTech Innovation Center) and organized by SMPE/e (School of Medical Physics and Engineering). The course is obligatory for all e/MTIC related PhD's and PostDocs.

Course contents
In this half day course two data related topics are discussed:

1. Research Data Management
2. Managing personal data (as defined by GDPR and AVG) in research.

If your research data includes personal data (e.g. anonymized or pseudonymized data) you will learn how to implement privacy legislations like AVG and GDPR and how to manage personal data securely in your daily research.

Course objective
After this course you will have a good working knowledge how research data management requirements from NWO, ZonMW, H2020 impacts your research and how to implement Data Management Plans (DMP).
